

FEIERABEND ASSOCIATION FOR MUSIC EDUCATION

Courses 2024 - 2025

John Feierabend & FAME

PHILOSOPHY

All people have the potential to become tuneful, beatful, and artful. Skills in these areas should be developed as early as possible in childhood. Developing these skills will contribute to a society of musical people who seek opportunities to sing together, dance together, and who are moved by expressive music.

VISION

Musical Childhood, Musical Adults, Joyful Community

CORE VALUES and BELIEFS

Education - Utilizing the Feierabend philosophy of music education to foster the growth of music educators across the world.

Community - Sharing in the joy of music making and treasuring time together while we support, grow with, and learn from one another.

COURSES

2024 - 2025

01
